

Roll Out the Barrels

Some of the best things in life are free. Rainwater is one of them. Place a rain barrel beneath the downspout on your gutters to collect rainwater from your roof. Rainwater is naturally acidic and doesn't contain chlorine like tap water from municipal systems.

Use rainwater and you will:

- ◆ Reduce the runoff from your property and help protect water quality.
- ◆ Help your houseplants and gardens to thrive.
- ◆ Save money on your water bill.
- ◆ Have shiny hair (remember Grandma's beauty secret).

Ready for a rainy day?
